LEADING SUSTAINABILITY INNOVATIONS

# Welcome to GOLGI19

## Message from the Founders:

We extend our warmest welcome to you as we embark on a journey towards a more sustainable and responsible future. At Golgi19, we believe in the power of innovation and expertise to create positive change.

# Our Mission and Values

## At GOLGI19, our core values are rooted in sustainability, ethics, and excellence.

We are driven by:

- **Expertise:** Our team comprises seasoned professionals and young visionaries who bring a wealth of knowledge in sustainability, industrial processes, and innovation.
- **Dedication:** We are fully dedicated to the fields of Life Cycle Assessment (LCA), Ecodesign, Carbon and Water Footprint analysis, and much more. Our commitment extends beyond our work; it's a way of life.
- **Impact:** We measure our success by the positive impact we create, whether it's in reducing carbon footprints, promoting circular economies, or contributing to Sustainable Development Goals (SDGs).
- **Innovation:** We embrace innovation and cutting-edge methodologies, ensuring that our clients receive the most effective and forward-thinking solutions.
- **Responsibility:** Corporate Social Responsibility (CSR) is at the heart of what we do. We uphold the highest ethical standards and principles in every aspect of our work.

Join us on this journey of transformation.

**Together, we can build a sustainable, resilient, and responsible future.**

# Introduction

## Our Mission Statement

At **GOLGI19** our mission is to lead the way in creating a more sustainable and responsible world. We are dedicated to providing innovative solutions that empower businesses to thrive while minimizing their environmental impact.

## Our Commitment to Sustainability and Corporate Responsibility

Sustainability is not just a buzzword for us; it's a fundamental principle that guides every facet of our work. We recognize the interconnectedness of economic, social, and environmental factors, and we are committed to balancing these elements for the greater good.

We are resolute in our commitment to:

- **Environmental Responsibility:**  
We actively work towards reducing carbon footprints, water consumption, and waste in industrial processes. Our expertise in Life Cycle Assessment (LCA) and Ecodesign allows us to identify opportunities for sustainability improvements.
- **Social Impact:** We believe that business should have a positive impact on society. Our dedication to Corporate Social Responsibility (CSR) is reflected in our ethical sourcing practices and support for fair trade initiatives.
- **Sustainable Development:**  
We align our actions with the United Nations Sustainable Development Goals (SDGs), contributing to global efforts to address pressing challenges, from poverty eradication to climate action.
- **Ethical Business:**  
Our commitment to ethical consumerism and responsible investing drives us to advocate for transparency and responsible business practices across industries.

- **Innovation:** We continuously innovate to stay at the forefront of sustainability trends and technologies, enabling our clients to thrive in an ever-changing landscape.

**Together with our clients and partners, we are building a world where sustainability and profitability coexist. Join us on this journey towards a brighter, more sustainable future.**

# Our Services

## Empowering Sustainable Solutions

At **GOLGI19**, we offer a comprehensive range of services that empower businesses to embrace sustainability, reduce their environmental footprint, and excel in responsible corporate practices.

Our expertise spans a diverse set of areas, including:

- **Life Cycle Assessment (LCA):**  
We conduct in-depth LCA analyses to evaluate the environmental impact of products, processes, and systems. Our assessments provide valuable insights for minimizing resource consumption and emissions while optimizing efficiency. We are also certified in LCA assessment.
- **Environmental, Social, and Governance (ESG) Consulting:**  
Our ESG consulting services help organizations integrate ethical, social, and environmental considerations into their strategic decision-making. We guide you in aligning your business with the principles of sustainability. We are certified ESG consultants.
- **Carbon and Water Footprint Analysis:** We specialize in measuring and reducing carbon and water footprints. Our analyses identify areas where emissions and water use can be minimized, contributing to a more sustainable operation.
- **Sustainable Supply Chain Solutions:**  
Transform your supply chain into a force for sustainability. We offer solutions that enhance transparency, ethical sourcing, and resilience in your supply chain, reducing risks and improving brand reputation.
- **Ecodesign and Sustainable Packaging:** Our ecodesign experts create innovative product designs that reduce environmental impact from inception. We also advise on sustainable packaging solutions that minimize waste and promote responsible consumption.
- **Climate Change and Zero Emission Strategies:**  
Addressing climate change is at the core of our mission. We help you develop and implement strategies to reduce greenhouse gas emissions, achieve carbon

neutrality, and contribute to global climate goals.

- **Auditing of ESG and LCA Assessment:**

In addition to our consulting services, we provide auditing services for ESG and LCA assessments. Our certified auditors ensure the accuracy and credibility of your sustainability reports and assessments.

**Our services are designed to not only meet today's sustainability challenges but also to future-proof your business for tomorrow's demands. We partner with you to create tailored solutions that align with your goals and values.**

# Our Approach

## Pioneering Sustainability and Responsible Business

At **GOLG119**, we take a holistic and forward-thinking approach to sustainability and responsible business practices. Our commitment extends beyond consulting; it's a partnership to create a lasting positive impact on your organization and the world.

## Emphasizing Sustainability

We believe that true sustainability goes beyond compliance—it's about transformation. Our approach is characterized by:

- **Strategic Vision:** We work closely with our clients to develop sustainability strategies aligned with their business objectives. Our experts identify opportunities for growth, resilience, and market differentiation through sustainability.

- **Data-Driven Insights:** Our reliance on data and analysis sets us apart. We employ advanced tools and methodologies, including Life Cycle Assessment (LCA) and Environmental, Social, and Governance (ESG) frameworks, to provide a comprehensive understanding of environmental impact and social responsibility.

## Reducing Environmental Impact

Reducing your environmental footprint is at the core of our services. We assist our clients by:

- **Evaluating Impact:** Through LCA and carbon/water footprint analyses, we identify key areas for improvement and resource optimization.
- **Ecodesign:** Our experts collaborate with product and process designers to minimize environmental impact from the start, resulting in eco-friendly products and sustainable operations.

## Enhancing Social Responsibility

Social responsibility is an integral part of sustainable business.

We support our clients in:

- **ESG Integration:** We integrate ethical, social, and governance considerations into your business strategies, enhancing your brand's reputation and attracting socially responsible investors.
- **Biodiversity and Fair Trade:** We promote biodiversity conservation and fair trade practices, contributing to social equity and sustainable sourcing.

## Innovation for Sustainability

Innovation is the driving force behind our success. We leverage cutting-edge methodologies and tools, such as advanced LCA, to provide clients with the latest insights and solutions.

**GOLG19** stands at the forefront of sustainable practices, helping businesses navigate the complex landscape of sustainability and corporate responsibility. Together, we can lead the way to a more sustainable and responsible future.

# Our Team

## Driving Sustainability Through Expertise

At **GOLGI19**, our success is driven by our exceptional team of experts who are deeply dedicated to sustainability and ethics.

Our diverse and highly qualified team includes:

**1. Academic**

**Experts:**

Renowned experts in the fields that our company operates in, these individuals bring extensive academic knowledge and a wealth of experience to our team. Their affiliation with the Università Statale di Milano reflects our commitment to academic excellence.

**2. PhDs**

**in Chemistry:**

Our team includes PhDs in Chemistry with profound expertise in areas closely related to our company's focus. Their scientific backgrounds enable us to provide rigorous analyses and innovative solutions.

**3. Engineers**

**and Researchers:**

Our engineers and researchers specialize in the specific fields of our company's operations. Their hands-on experience and dedication to sustainable practices are integral to our ability to implement effective solutions.

**4. Computer Science**

**Experts:**

Our computer science experts focus on automation and machine learning, providing essential software development and optimization capabilities that enhance our efficiency and effectiveness.

**5. Economic**

**Experts:**

We are supported by economic experts with a specialized focus on sustainability for companies operating in our sectors. Their insights help our clients make financially sound and ethically responsible decisions.

# Dedication to Sustainability and Ethics

**Each member of our team shares a common commitment to sustainability and ethics.**

We operate with a profound sense of responsibility towards the environment and society, upholding the highest ethical standards in every aspect of our work. Our dedication to these principles is not just a professional obligation but a personal conviction that drives us to create positive change.

**GOLGI19** is proud to have assembled a team of experts who are not only leaders in their respective fields but also champions of sustainability and ethics. Together, we are dedicated to making the world a better place, one sustainable solution at a time.
